

BELAYNESH KNDIE

Jyväskylä, Finland | tslatebely@gmail.com | +358466347802 | [GitHub](#) | [LinkedIn](#)

PROFILE

Software Engineer with a BSc in Software Engineering and an Erasmus Mundus MSc in Brain and Data Science. My background includes web development, backend systems, data pipelines, APIs, and machine learning. I have worked on projects combining software engineering and applied AI to develop data driven applications and solutions.

SKILLS

Programming: Python, Java, JavaScript, C#, C++, SQL

Software Engineering: Object-Oriented Programming, Data Structures and Algorithms, REST APIs, Git

AI & Data: Machine Learning, Deep Learning, LLMs, NLP, Multimodal ML

Frameworks & Technologies: PyTorch, TensorFlow, Flask, Vue.js, Node.js, PostgreSQL, Docker, Linux, Azure Functions

EXPERIENCE

AI Research Intern (Remote)

Haqila Research Lab | Jun 2026 – Present

- Develop machine learning applications that integrate tabular and image data for multimodal disease analysis.
- Design and maintain reproducible data processing and machine learning pipelines for heterogeneous datasets.
- Implement, evaluate, and optimize machine learning models for classification and decision support tasks.

Graduate Researcher | Machine Learning

University of Jyväskylä | Sep 2025– Jun 2026

- Developed machine learning pipelines for data preprocessing, feature engineering, model training, and evaluation.
- Built reproducible workflows for processing and analyzing complex real-world datasets.

Web Developer

Eyu-Ethiopia Nov 2022 – Oct2024

- Developed and maintained a website and web application supporting organizational operations and internal workflows.
- Developed features using PHP, Vue.js, Tailwind CSS, Node.js, and PostgreSQL.
- Worked with stakeholders to develop, test, and maintain the applications.

Assistant Lecturer

BahirDar University | Oct2021–2024

- Taught undergraduate programming and software engineering courses through lectures and practical sessions.
- Mentored students in programming, debugging, software development, and graduation projects.

Software engineering Intern

Ethiopian Airlines | 2019 – 2020 | 4 months

- Developed and tested software components using C# and .NET under the guidance of senior developers.
- Participated in debugging, testing, and software maintenance in an enterprise development environment.

PROJECTS

Multi-Agent Job Application Assistant | Python, CrewAI, Hugging Face API

- Developed a multi-agent application that analyzes job descriptions and CVs to identify relevant skills and skill gaps.
- Implemented agent workflows using CrewAI and integrated LLMs through the Hugging Face API.

Sentiment Analysis Service | Azure Functions, Cosmos DB, REST APIs

- Built a serverless sentiment-analysis service using Azure Functions, Cosmos DB, and REST APIs.
- Implemented automated text processing, sentiment analysis, and data storage workflows.

Waste Classification REST API | Flask, TensorFlow, ResNet50

- Developed a RESTful image-classification service using TensorFlow, Flask, and ResNet50 transfer learning.

EDUCATION

Master's in Brain and Data Science, Erasmus Mundus Joint Master's Program

University of Jyväskylä, Finland & Bar-Ilan University, Israel | Oct 2024 –Jul 2026

- Coursework included Machine Learning, Deep Learning, Computer Vision, NLP, Cloud Computing, Software Architecture, and Data Analysis.
- CGPA: 4/5.

BSc Software Engineering

Bahir Dar University, Ethiopia | 2021

- Coursework included Data Structures and Algorithms, Object-Oriented Programming, Database Systems, Software Engineering, Requirement engineering, Web Development, and Software Testing
- CGPA: 3.89/4.

TRAININGS & CERTIFICATIONS

Full-Stack Software Development Training

Minab Tech + Bahir Dar Institute of Technology | May–July 2023

- Hands-on training in modern web development, JavaScript, GraphQL, PostgreSQL, Docker, and software engineering practices.

International Summer School Program

University of Zagreb, Croatia | Jun – Jul 2024

- Participated in an international summer school program focused on data science and interdisciplinary computing.

LANGUAGES

English: Professional working proficiency

Amharic: Native

Finnish: Basic proficiency
